Kaizen+ Technology | ArmourGuard Technology
with all new industrial HEPA | Gastrack carbon
| Premium pre filter

High Grade gas removal carbon filter can
effectively remove SO_2 , NO_2 & TVOC.

Product Description	
Rated Voltage	220 V
CADR	1400 m ³ /hr
Coverage Area	1800 sft
Dimensions	Height~4ft Width~2ft app.
Net Weight	45 Kg
Filter	HEPA H13

- Filters ultra-fine particles as small as 0.01 microns, 150 times smaller than PM2.5
- Captures up to 99.99% of particles as small as 0.1 microns from the air that pass through the filters
- Filters out a wide spectrum of pollutants incl. airborne allergens, harmful gases, bacteria & viruses
- Natural filtration with NO OZONE or harmful chemicals being released in the process

Ultra Silent & Quiet Operation

Noise level of only 41db at the lowest fan speed which is as quiet as a whisper, enabling ultra-silent operation that allows a comfortable and healthy sleep

The most advanced air quality monitor LiveAir Nexus is an intelligent technology that helps you monitor the unseen threat of air pollution around. The device has been tested in various environments to match the Indian seasonal challenge of air pollution all around the year. The large display of the device has been made to provide monitoring of maximum pollutants live.

LiveAir Nexus

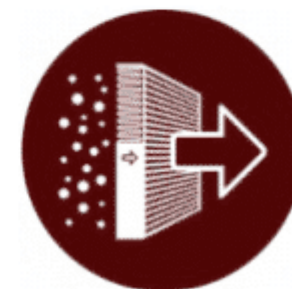

1. PM2.5
2. PM1.0
3. Pm10
4. HCHO
5. TVOC
6. RELATED HUMIDITY

7. Temperature
8. AQI
9. On screen Date and Time
10. Alarm
11. 3 screen mode options
12. Wi Fi

Advind Healthcare has the expertise and accuracy in providing the most effective and smart solution for maintaining the air quality challenges.

Air quality management solutions for Industrial and domestic applications

Most comfortable and effective N99 anti-pollution face mask

Monitor the quality of air around you!

We are expert in providing best filtration technology and services for all kind of AHU, FCU, TFA and robotic duct cleaning. We help our clients to eliminate 'Sick Building Syndrome'. Keep safe at work and be productive.
